

Machine Model: HFM38 2S and HFM76 2S

Video Link

Technical Specifications:

- NC system tube end - forming machine
- 2 stations
- Maximum 38X2 mm diameter
- Hydraulic clamp Hydraulic double forming
- Pneumatic buffer 4.3" color touch screen
- Manual or automatic operation on the screen To see daily / total amount of production on the screen
- To control the forming times of moving parts and to hold them desired pressure on the screen
- Foot pedal or button control (optionally) Ability to record 100 different programmes
- Max. hydraulic pressure 150 bar
- Motor power 7.5 kw
- Electrical panel safety lock and panel lock with key
- Two years guarantee; technical service and training confidency by CANSA MAKİNA Suitable for CE
